Dedicated Development Center Model

Extension of the customer's software engineering facility. The customer pays fixed monthly rate for the team.

Hybride Model

A major portion of the project is on a Fixed Price basis and at the same time resources are deployed on Time and Material basis. Adopting such a model enables the client to maximize their ROI without compromising any aspect of the project itself.

➤ Fixed Price Model

The customer pays a pre-negotiated Fixed Price for the complete project, which in turns is linked to well-defined deliverables.

➤ Time & Material Model

Define the business model and work hand in hand with our client. The client pays a fixed hourly rate.

Build-Operate Transfer Model

We help the client to evaluate the risks involved and also help them to check the feasibility before investing in full-fledged manner.

Dedicated Magento Developer or Team of Developers

By hiring a dedicated developer, or development team, you can set an extension of your existing facilities at our development centers. Pay a fixed monthly rate with guaranteed deliveries on or before set dead-lines.

Hybride

Get dedicated developers at fixed prices along with the option of employing our services on hourly basis too. This is specially useful and economical if you have a varying work load. Get part of your work done on a as-and-when required basis. This allows you to use our services optimally and derive full value for money.

Fixed Price Project Based

As a client you simply pay a pre-negotiated price for complete projects with well-defined, always on-time deliverables.
